HUGHES' TOUR MANAGER SURE HE WILL WIN

C. W. Farnham Claims 300 Votes
for Candidate in Electoral
College.

BASED ON POLLS IN STATES

Report Says Republican Nomi-
nee Will Have Forty-four
Ballots to Spare.

NEW YORK, Oct. 21.—Charles W. Farnham, campaign tour manager for Charles E. Hughes, will submit to the Republican national committee today a detailed report on the political situation in the many States visited by Mr. Hughes. The report deals directly with the chances of the Republican party in "sure" States, "probably Republican" States and "possibly Republican" States and its material was acquired from local leaders who presented to Mr. Farnham their inside figures.

A consensus based on the polls taken in various States, the private figures supplied to State committees, and the estimates of State leaders produced the following table, giving Mr. Hughes 200 electoral votes, putting fifty votes probably for Mr. Hughes and holding fifty-five votes possible to get:

Sure for Hughes	Wyoming	3	
Ohio	Delaware	3	
Pennsylvania	23		
Oregon	3	Total	
Massachusetts	13	Probable	
New Hampshire	4	New Jersey	14
New York	40	Nevada	3

The Main Features.

The essential points of Mr. Farnham's report to the national committee are as follows:

"California is absolutely safe for Governor Hughes by a large plurality, and Gov. Hiram Johnson will be elected United States Senator by an overwhelming vote. The women of California are doing most effective work for Mr. Hughes, and among them are many who had previously been affiliated with the Democratic party."

"Colorado is always a close State. Early in the campaign when we were in Estes Park I was inclined to believe that it was more than doubtful, but subsequent information leads me to believe that both Governor Carlson and Mr. Hughes will carry the State."

"Idaho—There is not much doubt about Idaho being carried by Mr. Hughes, although I believe that the vote will be close."

"Illinois, in my estimation, will be found in the Republican column, have heard it estimated by leaders who ought to know of conditions in that State that it will give Mr. Hughes anywhere from 50,000 to 75,000 plurality. I think these figures are not exaggerated. There is a different angle to be taken in Illinois this fall, from the fact that it will cast more votes for President on November 7 than any other State in the Union, because women to the number of at least 600,000 will vote for the first time for President. This introduces an element in the situation which adds some uncertainty to the result. I have been told that some of the women have until recently been inclined to vote for

\$40,000 BET ON ELECTION

NEW YORK, Oct. 21.—Forty thousand dollars' worth of election bets were posted in Wall street today at various odds on Hughes and Wilson, following the heaviest single day's betting so far in the campaign.

Most of it was at 10 on Hughes to 7, 10 to 8, or 10 to 7½ on Wilson.

Albert Stokes said he had placed \$8,000 against \$10,000 on Wilson. He predicted even money the last week of the campaign. Edward McQuade said he had \$16,000 of Western Hughes money at 10 to 8.

BISHOP TURNS TITLE OVER TO BROTHER AND TAKES HIS JOB

Dr. John W. Hamilton Becomes
Chancellor of the American
University Here.

KINSMAN IN PITTSBURGH

For the first time in the history of the Methodist Church, a bishop has exchanged positions and titles with his brother. Bishop John W. Hamilton has been retired as bishop and made chancellor of the American University, and Chancellor Franklin Hamilton has been made bishop and sent to Pittsburgh, where he will be near enough to Washington to be able to run over occasionally and assist his brother in his work.

Dr. John W. Hamilton has taken up the residence in Washington and entered upon his new duties. Although he gave the first dollar toward the establishment of the university.

There is a sense of poetic fitness in Dr. Hamilton's making the chancellorship of the American University the crown of his life work, for, as it happens, he gave the first dollar toward the establishment of the university.

One of the meetings of the committee was held at Dr. Strong's sanitarium in Saratoga Springs. During the meeting Bishop Hurst, the chairman, asked Dr. Hamilton to walk with him to the postoffice to get the mail which the bishop received.

"This is the first call for \$100,000 to found a university in Washington, and as you are with me when the letters are received from the printer, it will give you the first opportunity to subscribe."

Dr. Hamilton replied, "The letter is too long to read while we walk, and I will read it on the train this afternoon and respond."

Sent Post Card.

When the committee separated Bishop Hurst returned to Washington and Dr. Hamilton took the train for the West.

As the latter had promised, he read the letter, and replied at once on a postal card as follows:

"Dear Bishop Hurst: Since you were kind enough to give me the first opportunity to subscribe to the fund for the founding of the American University, I herewith subscribe \$1. I do this for two reasons: First, it is within my means, and I can pay the subscription now. Second, I want to great an institution never to despise the day of small things. And last you may think I am trifling, I further agree to pay the last \$100 of the \$100,000."

The card was handed to the treasurer of the committee, Dr. G. Emery, former mayor of Washington.

Gastritis Factor in Paralysis Deaths

Philadelphia Health Inspector
Blames High Mortality In Dis-
ease On Poor Feeding.

BALTIMORE, Oct. 21.—The high mortality among infants with infantile paralysis the last summer and treated at the Philadelphia Hospital for Contagious Diseases was not caused by poor nourishment, according to Dr. A. A. Calbra, chief medical inspector.

"The disease is a combination of gastritis and infantile paralysis that caused the death of infants," said Dr. Calbra yesterday. "rather than the malady alone. In addition to the disease there was the difficulty of nourishing the baby."

"One of the embarrassments that we are confronted with now," said the medical inspector, "is the arbitrary manner in which parents are taking their convalescent children from hospitals where they are sent for treatment after the contagious disease has been passed."

The hospital management to which the child has been assigned can do nothing except protest against the hasty action of the parent.

"As a result of the parent taking the child home with the paralysis still active in the system, the child is the victim recovering the use of the limbs affected."

DANIELS IS FOR HALF-HOLIDAY, BENSON SAYS

Secretary of Navy Makes Sev-
enth Cabinet Member to
Favor All-Year Plan.

WAR OFFICIALS URGE IT

Heads of Eight Divisions of De-
partments Recommend Ex-
tension of System.

Secretary of the Navy Daniels has approved the all-year Saturday half-holiday for government employees, according to information obtained at the Navy Department today.

Admiral Benson, chief of naval operations and acting Secretary of the Navy, said today he understood Secretary Daniels had approved a half-holiday extension before leaving Washington on his present speaking tour.

This makes a total of seven of ten members of the Cabinet who have taken favorable action in the campaign to have the present three months' half-holiday extended to cover the entire year.

Of the three remaining Cabinet officers, Secretary of War Baker, Secretary of the Interior Lane, and Postmaster General Burleson, the Secretary of War is expected to endorse a favorable recommendation made by the chiefs of War Department bureaus.

Secretary Daniels is understood to have informed the President that an additional appropriation will be necessary to make the half-holiday plan effective, because it will apply not only to Washington, but to all navy yards and shore stations.

The extension of the thirty-day leave provisions to all the field force already has added 5 per cent to cost of naval operations, naval officials say.

Heads of eight divisions of the War Department have gone on record with Adjutant General McCain in recommending to Secretary Baker the extension. The other officers who have made favorable reports are:

Inspector General Garlington, Judge Advocate-General Crowder, Quartermaster General Macchiusi, and General Birmingham, General Black, chief of engineers; General Crozier, chief of ordnance; General McIntyre, chief of medical service; and General Scriven, chief signal officer.

Chief Clerk Scofield is prepared to add his favorable report to the recommendations of division chiefs will be submitted to Secretary Baker on his return to Washington next Wednesday.

YOUTH WHO SOUGHT WILSON HELD INSANE GEMS TO GERMANY

Richard Cullen May Spend Re-
mainder of Life in an
Asylum.

PITTSBURGH, Pa., Oct. 21.—Richard Cullen may spend the remainder of his life in an asylum. The youth who made persistent efforts yesterday to reach President Wilson while the Chief Executive was on an automobile tour of the city, is an inmate of Marshfield, the Allegheny county institution for insane, today.

He was committed following examination by police physicians, who declared him a mental defective. Dr. Barclay, physician to the Cullen family, declared that Thursday he had treated Cullen for an acute mental disorder. Cullen maintained throughout the examination that he only wanted to "interview" the President on his foreign policies.

"But he would have had to agree to change them or suffer the consequences," Cullen is reported to have said.

What the "consequences" might have been he did not say.

Germany to Force Belgians to Work

Berlin Press Says British Food
Blockade Compels Stricter
Measures in Future.

BERLIN, Oct. 21.—Able-bodied persons in districts occupied by the Germans, who prefer to loaf and ask public assistance to working, must be made to earn their living by working, said the official North German Gazette today.

The Gazette said that the "cutting off of food supplies by the English blockade made it imperative that residents of occupied districts use every effort to aid in their own maintenance."

This dispatch apparently bears out statements appearing in the British press that Germany was interfering with the relief work in Belgium and might cause its suspension.

SERBS SMASH BULGAR LINES IN MACEDONIA

Aided by French Attacks on
Whole Front, They Close in
on Monastir.

BATTLE RAGES IN DOBRUDJA

Mackensen Takes Offensive in
Effort to Halt Roumanians
in Transylvania.

LONDON, Oct. 21.—The Serbs have pushed nearer to Monastir in their new offensive, in which they are supported by the French, attacking on the whole front, it was officially announced in Paris dispatches today, making further progress in the bend of the Cerna river. North of Velik, the allies have reached Skirk Baldek.

The most violent artillery action continues on the allies' right wing.

An official statement from the Bulgarian war office, received by way of Berlin, admits that the Serbians are attacking in great force, but claims that they have been completely repulsed at all points.

SERBS PUSH NORTH.

Athens reports that the Serbian advance across the Cerna has menaced the strong Bulgarian positions at Kanali, barring the way to Monastir. The Serbs are now advancing against Kanali from both south and east.

A great battle is raging all along the Dobrudja front, where Mackensen has taken the offensive against the Russo-Roumanians in an effort to halt the Rumanian counter-offensive in Transylvania, say dispatches from Petrograd.

Attacking in the region of Koburja, the German-Bulgarian troops yesterday morning occupied the village and continued their attacks throughout the day. The enemy's attempts to make further advances were repulsed with rifles and grenades.

Sofia reports intense cannonading on the Dobrudja front.

AMSTERDAM, Oct. 21.—In an address to his troops on the western front, commemorating the German dead, the Kaiser said:

"We who survive will fight until none ever dares again assail the honor and liberty of the German people."
